Notes to Editors

Northampton town centre Business Improvement District (BID) Northampton town centre BID was officially launched in 2011 following a successful vote by businesses to make Northampton town centre a designated Business Improvement District. The BID status was renewed in October 2015 for five more years until 2020. A BID is a defined area where the rate-paying businesses decide on improvements to their area, they then vote on the plans and agree to invest in the delivery of activities which directly impact upon their business turnover and profit. This money is then ring-fenced to provide the improvements agreed through the BID plan and can be used to generate other revenue to boost the pot of money available to deliver the plan. Business representatives in Northampton have developed a five year action plan around the key objectives of promoting the area. pfb UK is a specialist BID Project Management company which develops and manages a wide range of Business Improvement Districts across the UK including town centres and industrial estates.
